

PGY1 Pharmacy Residents

Cameron Faulk, PharmD; PGY1 Pharmacy Resident

Education: University of Tennessee College of Pharmacy

About Me: I am originally from Memphis, Tennessee and attended Union University in Jackson, Tennessee where I received my B.S. in Biochemistry. I then moved back to Memphis to attend pharmacy school. I was involved mainly with APhA-ASP as the Patient Care VP and enjoyed being able to equip others and serve the Memphis community. My current professional interests include emergency medicine and critical care. In addition, I have a passion for teaching, with a primary focus on precepting. I am excited to be a resident at University of Louisville Hospital due to it being an academic medical center that affords me the opportunity to be challenged in a variety of practice areas. Also, the interdisciplinary dynamic is inclusive and fosters an environment which seeks to equip all members of the medical team. During my free time, I enjoy hiking, canoeing, building, hunting, going on mission trips, and eating at all of the new local restaurants!

Lindsey Kays, PharmD; PGY1 Pharmacy Resident

Education: University of Kentucky College of Pharmacy

About Me: I am originally from Bardstown, Kentucky and pursued my PharmD degree at University of Kentucky. As a student, I completed three APPE rotations at University of Louisville Hospital where I fell in love with the progressive pharmacy practice model, preceptors and patient population. I am elated to be back and cannot wait to start this new chapter in my professional journey. My current clinical interests include ambulatory care and internal medicine. Outside of pharmacy, I enjoy playing volleyball, collecting houseplants and traveling.

Alixandra Mann, PharmD; PGY1 Pharmacy Resident

Education: St. John Fisher College Wegmans School of Pharmacy

About Me: I am originally from Winter Haven, Florida. I attended St. John Fisher College in Rochester, New York, where I completed two years of pre-pharmacy coursework and received my PharmD. When researching residencies, I knew I wanted a progressive academic medical center with a variety of learning experiences. I also wanted an institution that promoted a supportive environment and commitment to personal and professional growth, which I found at University of Louisville Hospital. I am excited to complete a residency at ULH where pharmacists are trusted, well-respected, and actively involved in decision making and patient care. My current interest areas include internal medicine, ambulatory care, and critical care. Outside of pharmacy, I love traveling, going to concerts, playing volleyball, crafting, and exploring Louisville!

Katlyn Mulhall, PharmD; PGY1 Pharmacy Resident

Education: University of Kentucky College of Pharmacy

About Me: I am originally from Louisville, KY and attended UK for undergrad where I received a B.S. in Agricultural Biotechnology. After graduation, I pursued my PharmD at UK as well. As a student, I completed my first APPE rotation at ULH in Internal Medicine and I absolutely loved it! I appreciated how trusted and respected pharmacy is within the institution, and that you never knew what kind of patient and disease state that you could see when you walked in the door. I am so grateful for the opportunity to be able to train here, and I am looking forward to learning a lot from everyone that I work with.

My current clinical interests include hematology/oncology, infectious diseases, immunocompromised patients, solid organ transplant, and academia. In my free time, I love traveling anywhere and everywhere, working out at Orange Theory, going to concerts and music festivals, hanging out with my family's pups, and trying new local restaurants around town.

Pauline Thiemann, PharmD; PGY1 Pharmacy Resident

Education: University of Florida College of Pharmacy

About me: I am originally from Juno Beach, Florida and attended the University of Florida for both my undergraduate courses and PharmD degree. While at UF, I was involved in the Equal Access Clinic, a student-run, free clinic that served the underserved populations of Gainesville, FL. I quickly realized my passion for helping the community and knew that I needed to find an institution with similar interests. The University of Louisville Hospital inspires me through their focus on patient-centered care, comradery, and commitment to helping their residents become well-rounded clinical pharmacists.

My current clinical interests include critical care and emergency medicine. In my free time, I like to volunteer, swim, hike, and be outdoors with friends.

Adrienne Wright, PharmD; PGY1 Pharmacy Resident

Education: Presbyterian College School of Pharmacy

About Me: I am originally from Greenville, SC and earned my BA in Anthropology from the University of Tennessee. I pursued my PharmD degree at Presbyterian College School of Pharmacy. During my 4th year, I had the opportunity to experience a wide variety of rotations which led me to realize that I wanted a similar experience as a PGY-1 resident. I was initially drawn to the University of Louisville Hospital because of the vast array of opportunities that they offer; and once I met the people, I knew I had found my pharmacy home.

My current professional interests include internal medicine and emergency medicine and I am excited to begin my journey as a professional within this wonderful field! My personal interests include working out, listening to podcasts, entertaining my cat, and going on culinary adventures with my better half.

PGY2 Pharmacy Residents

Meredith Huff, PharmD; PGY2 Internal Medicine Pharmacy Resident

Education: Sullivan University College of Pharmacy

About me: I am originally from Corbin, KY and attended Centre College in Danville, KY where I received my B.S. in Biology. Following Centre, I pursued my PharmD degree at Sullivan University College of Pharmacy (SUCOP). As a student at SUCOP, I completed several pharmacy practice rotations at the University of Louisville Hospital. During this time I was able to witness first hand the positive impact and crucial role that pharmacists play in direct patient care. I am excited to begin my journey as a PGY1 pharmacy resident at a place that already feels like home. My current clinical interests are ambulatory care, internal medicine, and infectious disease. Outside of pharmacy, I enjoy hiking, traveling the world, and exploring Louisville.

Laura Nice, PharmD; PGY2 Oncology Pharmacy Resident

Education: Northeast Ohio Medical University College of Pharmacy- Rootstown, OH

PGY1 Pharmacy Residency: UofL Hospital

About Me:

I was born and raised in Akron, OH and moved to New Wilmington, PA to attend Westminster College and complete my undergraduate degree in biochemistry. I then moved back home to attend Northeast Ohio Medical University. When researching residencies, I looked for a forward-thinking academic medical center with many experiences and a supportive learning environment. I wanted a program that would help me gain confidence as a new practitioner and expand my professional network, which I found at ULH. During PGY1 year, I realized the positive impact oncology pharmacists have on patients and the healthcare team. I am excited to continue my training at ULH to complete a PGY2 residency in oncology. I look forward to identifying my specific oncology areas of interest and enjoy infectious diseases and academia. Outside of residency, I enjoy being outdoors, swimming, and exploring Louisville, especially the great restaurants.

Josh Samuelson, PharmD; PGY2 Critical Care Pharmacy Resident

Education: Creighton University School of Pharmacy and Health Professions

About Me: I am originally from Omaha, Nebraska. I completed my undergraduate course work at Rockhurst University in Kansas City, Missouri, where I earned a B.S. in cellular and molecular biology and minor in business administration. I then returned to my hometown where I attended Creighton University and received my PharmD. Throughout clinical rotations, I found interests in emergency medicine, critical care, and infectious diseases where pharmacist involvement as part of the healthcare team can greatly improve patient outcomes. I am excited to be at the University of Louisville Hospital because of the extremely diverse patient population, the high level of patient acuity at a level I trauma center, and the teaching and precepting opportunities at an academic medical center. In my spare time I enjoy watching sports, working out, attending concerts, reading, and traveling.

Rachael Swisher, PharmD; PGY2 Oncology Pharmacy Resident

Education: University of Florida College of Pharmacy
PGY1 Pharmacy Residency: University of Louisville Hospital

About Me: I am originally from Cape Coral, Florida and received my PharmD from the University of Florida. My PGY1 year here allowed me to explore my many potential PGY2 interests, and I am thrilled to stay for a PGY2 year in Oncology that offers a unique balance of inpatient and outpatient experiences. I enjoy working in an academic medical center where I can foster interdisciplinary relationships, teach/precept students, and work on multiple meaningful projects. In my free time, I enjoy traveling with my fiancé, volunteering in the community, trying new restaurants, being a crazy cat lady, Netflix-binging, and playing beach volleyball with my co-residents (Go Beta Blockers!). One day, I hope to hike the entire Appalachian Trail.

Claire Thieneman, PharmD; PGY2 Ambulatory Care Pharmacy Resident

Education: University of Kentucky College of Pharmacy

About Me: I am originally from Louisville, Kentucky and attended Ohio State University where I received a B.S. in Pharmaceutical Sciences. After graduation, I attended the University of Kentucky where I pursued my PharmD degree. I completed two APPE rotations and my PGY1 residency at University of Louisville Hospital. I have been continually impressed with how progressive, trusted, and well-respected pharmacy is within the hospital. I am excited for the opportunities to grow both clinically and professionally during my PGY-2 in ambulatory care.

My current clinical interests include infectious diseases, primary care, academia, and transitions of care. My ideal practice setting is in an academic medical center where I am able to precept students and residents. In my free time, I like to go to the lake, play volleyball, and try new restaurants.

Chase Turner, PharmD; PGY2 Emergency Medicine Pharmacy Resident

Education: Sullivan University College of Pharmacy

About Me: I grew up in Sellersburg Indiana and attended IUPUI in Indianapolis for 3 years prior to my application to Sullivan. While at Sullivan, my interests were leaning towards clinical pharmacy, but it was not until my APPE year until I found where my passions lie. I had the opportunity of having several inpatient rotations at the hospitals in Louisville and I quickly fell in love with the pace of the emergency department. Pharmacy has an imperative role in this specialty and can be an active member of the healthcare team and to patients. I look forwards to the plethora of experiences that the University of Louisville has to offer me in the next year. In my free time I am an avid runner and love to play tennis and swim.
